## Screening and Assessment Tests to Check Academic Performance

Dear Parents

To improve academic achievement of each and every child is the prime objective of Army Public School, Jalandhar. In this regard, the school is taking an initiative to conduct screening and assessment tests for the shortlisted students of primary section from classes I-V to check their academic performance.

These screening and assessment tests will help identify students who need specialized methods for effective learning. These tests will facilitate creating a strategic learning environment for students. Which will not only help them improve academically but also boost confidence; self esteem and overall personality.

For the same you are requested to sign the undertaking given below so that we can start with our endeavour to achieve satisfying goals for our students.

### CONSENT

I -----Parent of-----of  
class/sec----- understand the importance of taking screening and assessment tests  
by my ward to improve his/her future performance. So, I allow my child to appear in  
the screening and assessment test conducted by the school.
