COOOOL NOVEMBER !

The eleventh month of the year, November is the fifth month that has 30 days. It signifies the onset of winter in the northern hemisphere and summer in the southern hemisphere. Originally being the ninth month out of ten in the Gregorian Calendar, it got its name from the Latin word 'novem' meaning ninth. However, when it moved to eleventh place with January and February being added at the beginning of the year, it retained its name and number of days.

SIGNIFICANT DAYS THROUGH NOVEMBER

1 November : Haryana Day, commemorating the formation of the state of Haryana in the year 1966

11 November : Armistice Day, in memory of the day on which World War 1 ended, in 1918

14 November: World Diabetes Day, celebrated since 1991 the world over to create awareness about Diabetes

17 November: Suez Canal became functional on this day in 1869

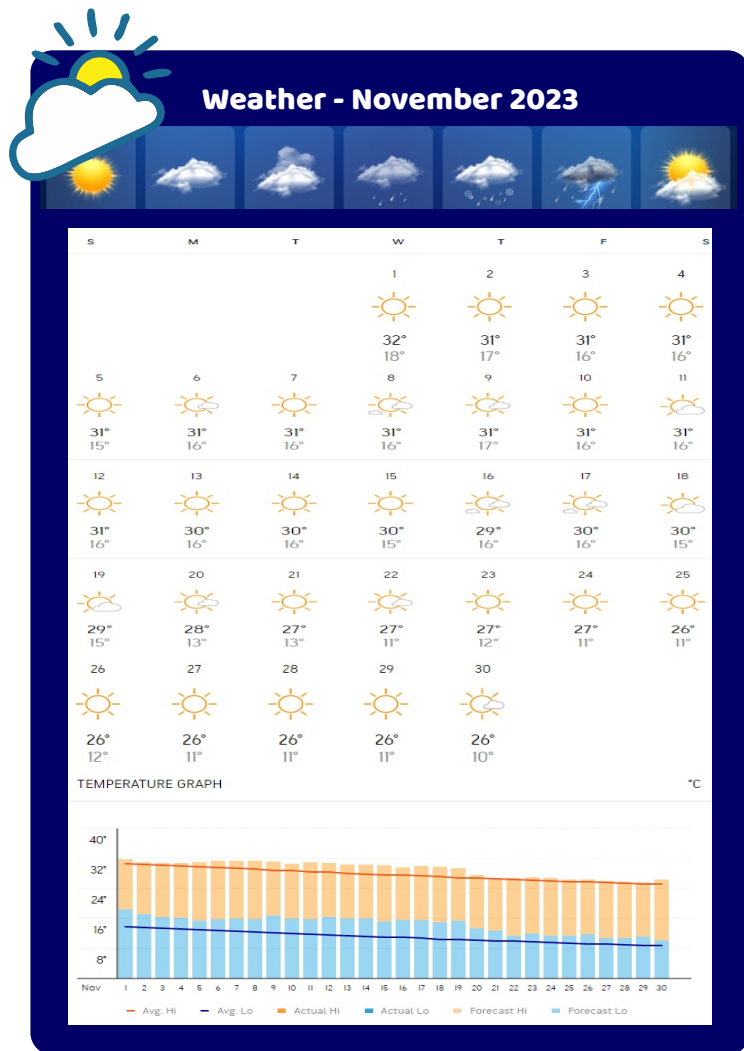

26 November: In 1922, it was on this day that archaeologists entered the tomb of Tutankhamen the teenage Egyptian pharaoh

PHAROAH TUTANKHAMEN

Pharaoh was the name ancient Egyptian kings were known by. Tutankhamen was one of the youngest known pharaohs of Egypt. He ruled from the age of 9 years to around 19 years, when he died a very mysterious death. At the time of burial, a pharaoh's face was covered with a golden mask resembling his facial features, with the belief, that on his entry into the world beyond death, he would be easily recognised. Tutankhamen's tomb in Egypt's 'Valley of Kings', was discovered by a British archeologist in 1922.

Tutankhamen's Burial Mask

WE ARE LOOKING FORWARD TO...
