TEACHER'S DAY CELEBRATION AT APS JALANDHAR: 05 SEPTEMBER 2023

This very special day commenced with greetings floating around, as children wished their teachers and colleagues wished each other. A special morning assembly presentation by teachers in the Senior Wing and little ones from Class II, in the Primary Wing, was next. After half a day of classes, school was out and children left for home. Thereafter the entire teaching fraternity, under the leadership of Principal Dr Saksham Singh, proceeded to the Primary Wing, for some fun time, where they were cordially received by Headmistress Ms Shallu Sharma and the Primary Wing teachers. Amidst an atmosphere of happiness and camaraderie, Ma'am Principal distributed gifts and greetings, courtesy the School Management, followed by a fun filled session of party games and song and dance sequences presented by the faculty members. The day culminated with everyone partaking a tasty community lunch. A memorable day indeed!

PRINCIPAL STAFF INTERACTION: 16 SEPTEMBER 2023

Principal Dr Saksham Singh took time out of her busy schedule to address the APS teaching faculty. All teachers from class I to XII, were in attendance. After inquiring about the general well being of the staff, she held an interactive session on addressing adolescence related issues in children. She also gave a presentation on calculation of teachers' API as per the new criteria floated by the AWES.

VEDIC MATH TRICK

Finding the square root of a three digit number

- Step 1. Take any number, say, 729.
- Step 2. Divide the number into two, separating the number at the hundreds place from the two at the units and tens place like: 7 29
- Step 3. Find the unit square of the number at the units place i.e. 9. Unit square of 9 means a number whose square ends in 9. Like $3 \times 3 = 9$, $7 \times 7 = 49$ So, unit square digits for 9 are 3 and 7
- Step 4. Now take the number 7 and see between which square digits it lies. Like $2 \times 2 = 4$ $3 \times 3 = 9$, so the digits 7 lies between are 2 and 3.
- Step 5. Now take the smaller of these digits i.e. 2.
- Step 6. Multiply it with the next digit i.e. 3. So $2 \times 3 = 6$
- Step 7. Now, out of 3 and 7 (the unit square digits), pick the one greater than 6.
- Step 8. Since the digit greater than 6 is 7, we put 7 at the units place and the digit from step 5, i.e. 2, at the tens place, to get the number 27.
- Step 9. Thus 27 is the square root of 729.

IN SERVICE TRAINING SESSIONS: SEPTEMBER 2023

CBSE WORKSHOP ON CAPACITY BUILDING: 29-30 SEPTEMBER 2023

Venue: St. Soldier Divine Public School, Jalandhar
